The Advantage of "GROUP OFFER" Buying

The "Group Offer" idea is patterned after your own method of ordering, namely, one piece of each design of a series to obtain a full variety of patterns. We prepare and assemble "GROUP OFFER" assortments while the goods are in the factories. The resulting savings are offered to you in the form of the lower "GROUP OFFER" prices which you will see quoted throughout the Catalog.

"Group Offer" prices quoted in this catalog also apply to purchases of $\frac{1}{2}$ dozen or more pieces ordered of any ONE DESIGN, but Group Offer prices DO NOT apply to orders for parts of Groups, such as, " $\frac{1}{2}$ Group" or " $\frac{1}{4}$ Group," except where indicated.

Be sure to buy "GROUP OFFERS" . . . they mean extra profits for you!

A NEW PLAN to help you sell more yarn

FOR the first time yarns are being made available to you in exact assortments of colors necessary to make a specific article, relieving you of the necessity of carrying a large stock of yarns by purchasing solid boxes of each color.

On the opposite page, and also on the back cover of this catalog are illustrated two very exquisite AFGHANS with PILLOWS to match. Formerly, the yarn required to make either of these two articles would necessitate your purchasing one box each of 18 or 21 colors—an investment larger possibly than you may feel inclined to make, even though the craze for AFGHANS and PILLOWS is sweeping the country.

Now, however, we offer **Bear Brand** and **Bucilla Yarn** dealers the ideal way of capitalizing this vogue for AFGHANS through the presentation of these new counter display units Nos. 101 and 201, each of which contains the exact number of balls of each color required for making one complete AFGHAN as described below.

Here is a definite outlet for every ball of yarn you receive. **There is no dead stock to be left over!!!** Furthermore, every color is a staple shade for which you will find a steady and active demand.

BUY YOUR YARNS THIS NEW WAY AND MAKE REAL YARN PROFITS!

Each of these counter display units illustrates the AFGHAN and PILLOW set in full colors on the covers of the carton so that when the carton is placed open on your counter it will make a most attractive and appealing display, and the illustration of the AFGHAN and PILLOW in actual colors serves the same purpose as a finished display model, making this proposition very compact.
